REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: In the Final Office action mailed May 20, 2005, the Examiner proposed to modify the *Charley* reference (U.S. Pat. No. 6,153,279) in view of the *Martin* reference (U.S. Pat. No. 5,641,116) by replacing the two-piece adhesive disclosed by *Charley* with the one-piece adhesive disclosed by *Martin*. However, making such a modification would not only result in an exposed magnet, as called for in the claims, it would also result in a sticky adhesive remaining on the substrate when the adhesive was removed from the magnet. *Charley* specifically avoids this problem by using a two-piece adhesive in which the pieces stick to each other, but not to anything else. *Charley* states, "an object and advantage of the present invention is that when the magnet is removed from the substrate, there is no exposed adhesive on either the magnet or the substrate." Appellant points this out on page 7 of the brief filed April 12, 2007, and the point is well taken. The modification proposed by the Examiner is specifically taught against by the base reference, and therefore, the modification would not have been obvious to one of ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary C. Hoge whose telephone number is (571) 272-6645. The examiner can normally be reached on 5-4-9.
